POLITICAL AND GOVERNMENT POSITIONS:
State Senator 2021-present

STATEMENT:
I am humbled by the trust the voters put in me two years ago to serve in the senate. I hope that I have validated the faith of the voters by my actions the last two sessions.

The model of operations our state has been using for the last half century is failing. We are still stuck asking the same questions that we had fifty years ago. How do we grow an economy outside of oil and government? We need to get the resources of the state into the hands of the people instead of the government. We do that by putting the PFD into the constitution and instituting a meaningful spending cap. Those policies will support small business and put the power into the hands of individuals rather than a select few.

Alaska's best days are still ahead if we can put the people in charge and the government in support. If we reverse those roles, our best days will be behind us. I would be honored by your vote this November.
